

AUTOMATIC CARTON SEALER

Description

This machine is used to automatically seal carton with pressure-sensitive adhesive tape like PVC and BOPP. It is used for the carton in regular shape. Carton sealer can be customized according to customers' requirements so as to meet different customers' needs. The machine has been widely used in the food industry, chemical fiber, tobacco redrying, pharmacy, publish, air conditioning, household appliance, ceramics, hot work and so on.

The high quality of all materials and high technical standards for all mechanical and electronic components, with high efficiency precisely assembling and testing procedures, lead to high performance, safe and durable products.

Machine Features:

- Manual adjustment for different cartons' width and height
- Side belts drive
- Automatically fold carton top flaps
- Automatically convey and seal carton top and bottom at the same time
- Can be connected with fully automatic production line
- High efficiency and energy saving
- Easy maintenance
- To cooperate with case erector and case packer as traditional packing solution

AUTOMATIC CARTON SEALER

Basic information:

Power supply	:	1P 110V/220V 50HZ/60HZ 400W (hot melt system 3KW)
Compressed air pressure	:	0.4MPa~0.6MPa
Table height	:	550mm~750mm(foot cup), 630mm~820mm(truckles) Convey
Speed	:	20m/min
Carton dimensions	:	L (200~550) xW (150~480) xH (100~480) mm
Tape spec	:	Adhesive 48~72mm
Adhesive tape material	:	Kraft paper, or, BOPP
Electric components	:	Taiwan "Luson" motor; France "Schneider" contactor; Germany "Siemens APT" push button Pneumatic
Components	:	Taiwan "Airtac"
Working noise	:	≤75DB(A)
Surroundings	:	Humidity ≤98%, temperature 0~40 C°
Machine dimensions	:	L1650mmxW890mmxH (table height+890mm) Packing
Dimensions:	:	1950mm x W 1050mm x H1550mm
N.W/G.W:	:	280KG/330KG
Option:	:	A: Extensional input/output working table B: Truckles C: Q304/Q201 stainless steel D: Safety guard E: Hot melt system
